

## British Standards Online (BSOL)

British Standards Online contains the full text of over 100,000 British and adopted European and International standards (e.g. BSI, ASTM, ASME, ISO, IEC).

### Logging in

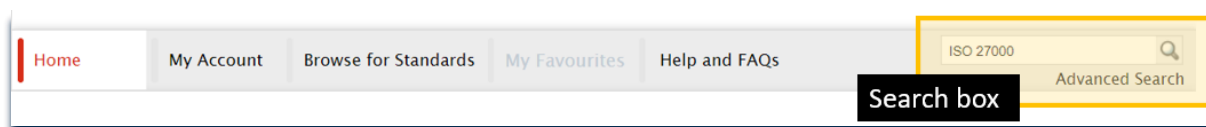

If you are already logged into iLearn or the Learning Success Hub with your Arden Office 365 credentials, you can access BSOL directly through the library's [A-Z List of Databases](#).

Alternatively, BSOL can be accessed using this link: [BSOL website](#).

1. Click on **Institutional Login**.
2. Click on **Open Athens login**.
3. Type "Arden" in the search box. A link will be displayed. Click on the link and enter your Arden Office 365 credentials.

### Finding a standard

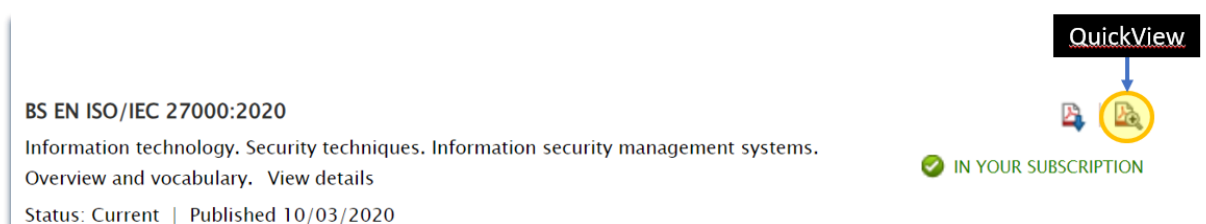

The easiest way to find a standard is to search for the standard number (e.g. *ISO 27000*) in the search box.

You can also browse for standards by subject or module.

### Viewing standards online

You can view standards online using the QuickView icon.

### Downloading and printing

BSI have added Digital Rights Management to files which means that if you wish to download or print a standard you will first need to install **FileOpen** on your device. This is a plugin for Adobe Acrobat.

For further guidance on installing the FileOpen plugin, use this BSI website link and click on **DRM - Digital Rights Management** in the list: [Help and Support - BSI Knowledge](#).
